

Meetkunde in de Herfsttij II Geometry in Autumn

Workshop 28 – 29 September 2006, Leiden University

Scientific Coordinators

- B. Edixhoven, Leiden
- G. van der Geer, Amsterdam
- M. Lübke, Leiden

Speakers

- E. Amerik, Orsay
- W. Barth, Erlangen
- A. Beauville, Nice
- F. Catanese, Bayreuth
- G. Deschamps, Brest
- G. Farkas, Austin
- K. Hulek, Hannover

- This short symposium is devoted to recent developments in Complex Algebraic Geometry. The focus is on moduli spaces, algebraic curves and surfaces, and vector bundles. We also look back and evaluate the developments since the symposium 'Geometry in Autumn, I' held about ten years ago.

The Lorentz Center is an international study and visitors' center in the sciences. Its aim is to organize workshops for scientists in an atmosphere which fosters collaborative work, discussions and interactions. For registration see: www.lorentzcenter.nl
